

This document shall guide the phased reopening for appropriate Lenexa Parks and Recreation facilities, services and events during the coronavirus pandemic (COVID-19) crisis. Using the State of Kansas COVID-19 Recovery Plan as a foundation for decision-making, it shall reflect the recommendations of the Johnson County Department of Health and Environment, Kansas Department of Health and Environment, and Centers for Disease Control and Prevention (CDC) guidelines. This plan shall be adapted or edited to respond to developing concerns related to the pandemic and shall be used to guide the decision-making, planning and communication. Reopening will be contingent on adequate resources.

Administrative planning includes updated protocols for cleaning, 6-foot distancing measures to adapt programs, facility layout, and appropriate signage. External communication and emergency procedures specific to this crisis have also been created and will continue to be updated as the situation requires. It is our goal to do everything we can to offer programs and experiences that are safe for our staff and patrons. The plan shown below includes four phases. The timing of safely progressing between each phase will be dependent on gating criteria and will be directed by the Johnson County Health Department. More information on the gating criteria can be found at <https://www.coronavirus.kdheks.gov>.

TABLE OF CONTENTS

Art Gallery.....	1	Outdoor Sport Courts/Skate Park	6
Athletic Fields	2	Outdoor stage	6
